

E1BCA1T1 – O – 24 – 6081

FIRST SEMESTER B.C.A. (REVISED NEP) DEGREE

EXAMINATION, JANUARY/FEBRUARY 2025

DSC – 1 : PROBLEM SOLVING TECHNIQUES USING C

Time : 3 Hours]

[Max. Marks : 80

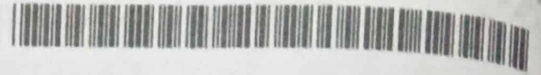

Instruction : Answer Part – A, Part – B, Part – C questions.**PART – A**Answer **all** questions. **Each** carries 2 marks.**(10×2=20)**

1. What is software ? Mention the types.
2. List the characteristics of computer.
3. Differentiate machine language and high level language.
4. Define compiler and loader.
5. Mention any four Header files.
6. List the basic datatypes and size in bytes.
7. What is array ? How to declare the array ?
8. What is local variables and global variables ?
9. What is C-token ? List the C-tokens.
10. What is structure and union ?

PART – BAnswer **any 6** questions. **Each** carries 5 marks.**(6×5=30)**

11. What is flow chart ? Draw a flow chart for largest of three numbers.
12. What is algorithm ? Write a program to find the factorial of given number.
13. Explain Scanf() and Printf() with example.

[P.T.O.]

14. What is variable ? What are the rules for forming the variables.
15. Explain the basic structure of C language.
16. What is loop ? Explain the while and do-while loop.
17. Explain :
 - i) if-else statement
 - ii) Nested if-else statement.
18. Explain the generation of computers.

PART – C

Answer **any three** questions. **Each** carries **10** marks.

(3×10=30)

19. What is function ? Explain categories of function with example.
20. What is string ? Explain string handling functions with example.
21. Draw and explain block diagram of computer.
22. Explain :
 - a) Bitwise operators with example
 - b) Relational operators with example.
