01.	Write a program to create, initialize and access a pointer variable	
02.	Write a program to calculate the length of the string using a pointer	
03.	Write a program to swap numbers using pointer	
04.	Write a program in C to print all permutations	
05.	Write a program to store n students information using structure	
06.	Write a program to implement push, pop and traverse operation on STACK	
07.	Write a program to convert infix notation to postfix notation	
08.	Write a program to convert infix notation to prefix notation	
09.	Write a program to convert prefix notation to postfix notation	
10.	Write a program to perform the operation insert, delete, display on Queue.	
11.	Write a program to implement circular queue.	
12.	Write a program to implement Double ended queue.	
13.	Write a program to implement priority Queue.	
14.	Write a program to search an element using linear search.
